**2009 Out of State Travel Requests.** County Administrator, Scott Arneson, presented the 2009 Out of State Travel requests for various departments. Much of them were the same as 2008.

The request from Public Health involved a grant they received to send the Healthy Communities Director to Washington D.C. for a three day conference December 10-12, 2008. The only obligation to the county is employee wages.

*The committee recommended approval of the 2009 proposed out of state travel requests and the request to send the Healthy Communities Director to a three day conference December 10-12 in Washington D.C.*
