Kids Deserve a Shot! | [Oct. 18 - Nov. 30, 2021](#) | mn.gov/covid19

The State of Minnesota has launched 'Kids Deserve a Shot,' a vaccine incentives program encouraging Minnesotans 12-17 years old to roll up their sleeves and get fully vaccinated against COVID-19. Right now, only 50% of Minnesotans 12-15 and less than 60% of Minnesotans 16-17 are fully vaccinated, the lowest vaccination rates of all eligible age groups.

The State is launching 'Kids Deserve a Shot' to reward Minnesota youth for completing their vaccine series and building the broad community protection needed to keep our families and educators safe. The program consists of two sets of rewards for fully vaccinated 12-17 year olds:

- a \$200 Visa gift card for 12-17 year olds who start and complete their vaccine series over the next six weeks,
- and five weeks of drawings for \$100,000 Minnesota college scholarships and other fun Minnesota experiences for 12-17 year olds who have completed their vaccine series at any point in 2021.

Learn more details about the program and register at [Kids Deserve a Shot!](#).

Goodhue County Health & Human Services COVID-19 Update: October 21, 2021

6,194	Total positive cases	276	Total cases requiring hospitalization
5,98	Total confirmed (PCR test)	66	Total cases admitted to the ICU
207	Total probable (Antigen test)	8	Cases currently hospitalized
292	Active cases	85	Deaths
5,817	Patients no longer in isolation		

26,328 People with at least 1 vaccine dose

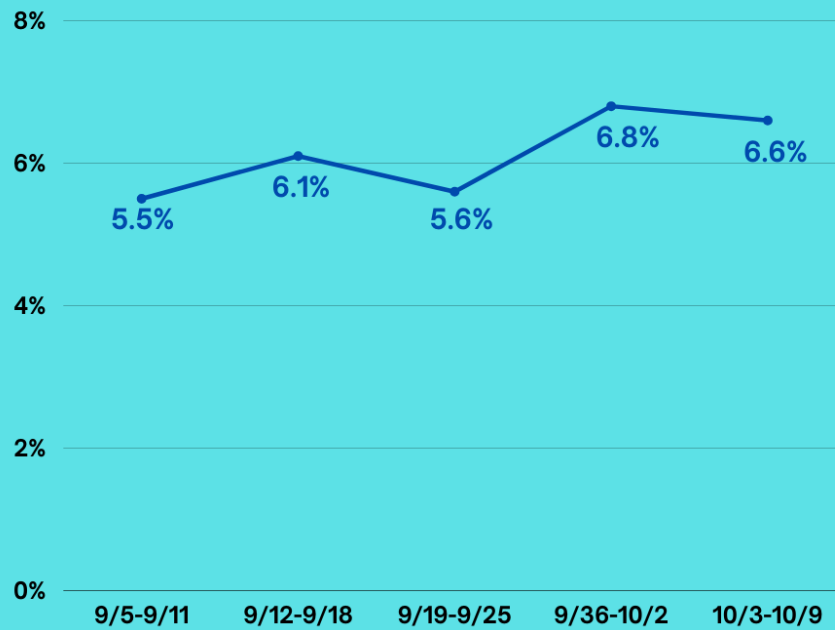

25,376 People with completed vaccine series

co.goodhue.mn.us/COVID-19

- Vaccine data is based on the county of residence, not the county where the vaccine was administered.
- The number of patients out of isolation and active cases is an estimate, based on the average recovery time from COVID-19.
- Positive PCR test results are considered confirmed cases. Positive antigen test results are considered probable cases.
- In Minnesota, a person must have both a documented positive COVID-19 test and either COVID-19 listed on the death certificate, or clinical history/autopsy findings that provide evidence that the death is related to COVID-19 without an alternative cause to be included in the deaths total.
- GCHHS receives the information on COVID-19 cases from MDH, and due to the preliminary nature of the data, changes are expected. There may be discrepancies between the numbers we report and what MDH is reporting.

This chart shows the change in weekly positivity over a five week time period.

Weekly Percent of Tests Positive in Goodhue County

Updated October 21, 2021

PERCENT OF GOODHUE COUNTY 12+ POPULATION VACCINATED

People with at least one
dose of vaccine

People with completed
vaccine series

Updated October 21, 2021

- Vaccine data is provided by the county of residence, not where it was administered.
- Vaccine data represents all Goodhue County residents, not just those vaccinated by GCHHS.

- *There is a delay between a vaccine being given and when it is reported to the Minnesota Department of Health (MDH). This is data as of 10/12/2021.*
